

CURRENT FLOODING INFORMATION

FOR IMMEDIATE RELEASE: December 9, 2015 8:30 AM

DUVALL, WA – The Snoqualmie River is currently in ‘Major’ flood stage. The flood gauge on the Snoqualmie River in the City of Snoqualmie is tapering with current flow around 50,000 cfs, but has not yet reached its peak. The flood gauge on the Snoqualmie River near Carnation is still trending sharply upward with flows around 50,000 cfs.

The City of Duvall can expect to see a continued increase in flood waters in the valley for at least 12 hours following peak flow in the City of Snoqualmie. There are a number of road closures currently affecting Duvall and the Snoqualmie Valley, with potential for additional closures to occur. Below is the current status of roadways:

- SR203 south of Duvall.
 - Is currently closed south of Carnation between MP 0 and MP 4 as of 12:30 AM 12/9/2015 [WSDOT](#)
- NE 124th Street
 - Is currently closed as of 02:30 AM 12/9/2015 [KING COUNTY](#)
- SR203 north of Duvall.
 - Still open at this time, but historically this road closes approximately 12 hours after the NE 124th Street closure, mid-day Wednesday December 9th. **Confidence level is HIGH**
- Woodinville-Duvall Road (aka WD)
 - Based on the current projected hydrograph and flow volumes we estimate road closure **could occur** around Wednesday evening. **Confidence level is MODERATE**

While based on the best information currently available, these estimates can change quickly and will be updated as necessary. Be alert for rapid changes and monitor developments by listening to NOAA Weather radio and other local media.

The City will update our Facebook page and website with updates throughout the day. Please; do not drive cars...vans...or trucks through flooded areas...this is the cause of most flood related deaths in Washington. Be SAFE and if a road is flooded, TURN AROUND.
